ILLUSTRATION FOR MODELS KX, KXH, and X

MODEL KXH KNEE ACTION HOT DRILL

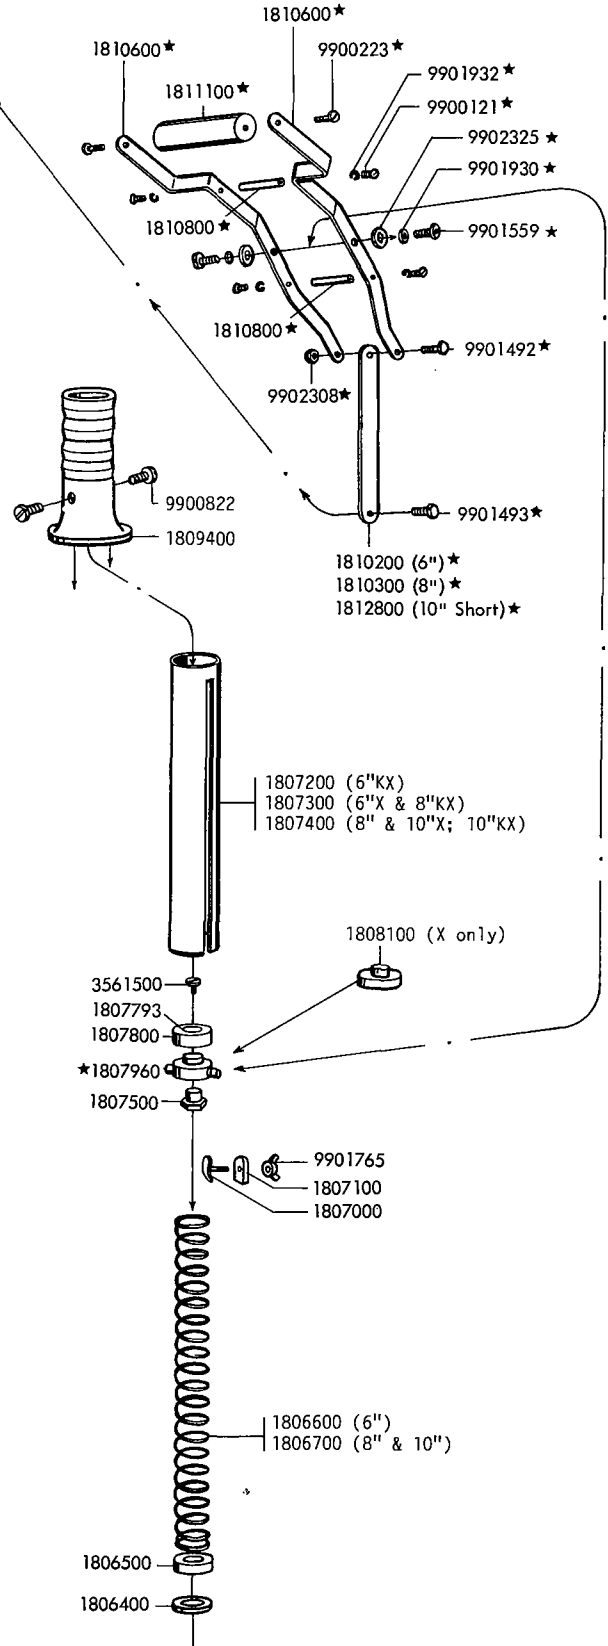

Uses the KX part numbers and KXH Heater Unit part numbers. Note: On hot drills the clear plastic base is not available. Only Type 'A' drill sizes are available for hot drills (see page 5).

MODEL X STRAIGHT DRILL

Uses the same parts as KX Drill except for knee action handle. Numbers indicated by a ★ (symbol) are not used on X Straight Drill.

MODEL KX KNEE ACTION DRILL

Use all parts except: Heater Unit parts 1808100 Bracket, 1089400 Handle and 9900822 Screw.

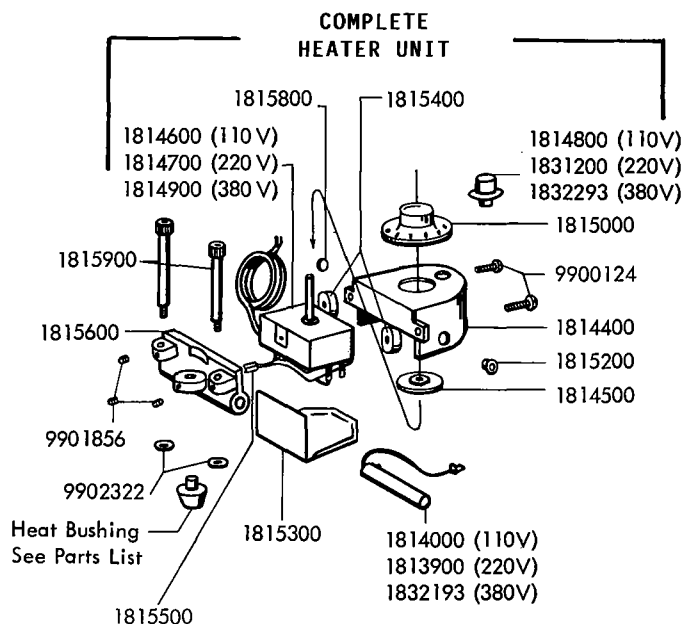

For Drill Needles: Type A, B, C, D, & P. See page 5.

Needle Guide Bushings - See page 5. 1801360, 1801460, 1852350. See Pg. 5

1815000	Dial	
1815200	Wire Grommet	
1815300	Insulator Cover	
1815400	Insulator Spacer	2
1815500	Wire Terminal Clip (not illust.)	5
1815600	Heater Housing	
1815800	Plug	
1815900	Guide Post	2
1831200	Pilot Light 220 Volt	
1832193	Heater 380 Volt	
1832293	Pilot Light 380 Volt	
9900124	Screw to secure 1814400	2
9901856	Set Screw	3
9902322	Washer	2

INSTRUCTIONS FOR OPERATING HEATER UNIT

WARNING Never touch Heater Unit or surrounding parts when unit is in operation. Touching it could cause severe burn.

1. Set Dial (1815000) to desired temperature (number). The red light will indicate when power is on. The higher the number, the higher the temperature. Most materials use a 6-7 setting, however other settings may be determined that will better suit a particular fabric.
2. Silicone may be sprayed on the needle when using the Heater Unit to prevent freezing of the drill in the bushing (such as 'Dow Corning Fabriglide').

**WARNING: ALWAYS
EXERCISE CARE
WHEN HANDLING OR
USING MACHINERY.**
