Since 1927 GOLD SEAL has been filling the need for fine industrial cutting instruments. Scissors and shears are designed, engineered and manufactured in the USA to satisfy the demand for continuous use. GOLD SEAL patented and introduced the "Ball Bearing" thread nipper which has become the recognized standard of the industry. GOLD SEAL also introduced the "Knife Edge" grind for shears, scissors and thread nippers.

All GOLD SEAL shears, scissors and thread nippers are made of special high carbon steel, hot drop-forged and then hardened and tempered to exact specifications for outstanding durability and edge retention. After assembly, each pair is individually adjusted and subjected to demanding tests for cutting abilities.

BALL BEARING NIPPERS

Gold Seal "precision" made thread nippers are used in many industrial applications. They are fast, efficient and convenient for any light cutting operation. The nipper fits the hand comfortably leaving fingers free to handle the material.

"Ball Bearing" construction for smoother, easier operation and increases the life of the nipper.

Superior

POLYMER COATED

Constructed with special blue polymer coating having unique properties and advantages:

- Tough polymer coating will not react to acids and salt in skin.
- Very low coefficient of friction, thread and debris slides off nipper more readily and improves ride.
- Superior corrosion resistance - will not migrate under coating.
- Eliminates contact allergies - prevents dermatitis.
- High visibility color - easy to locate.

NEW!

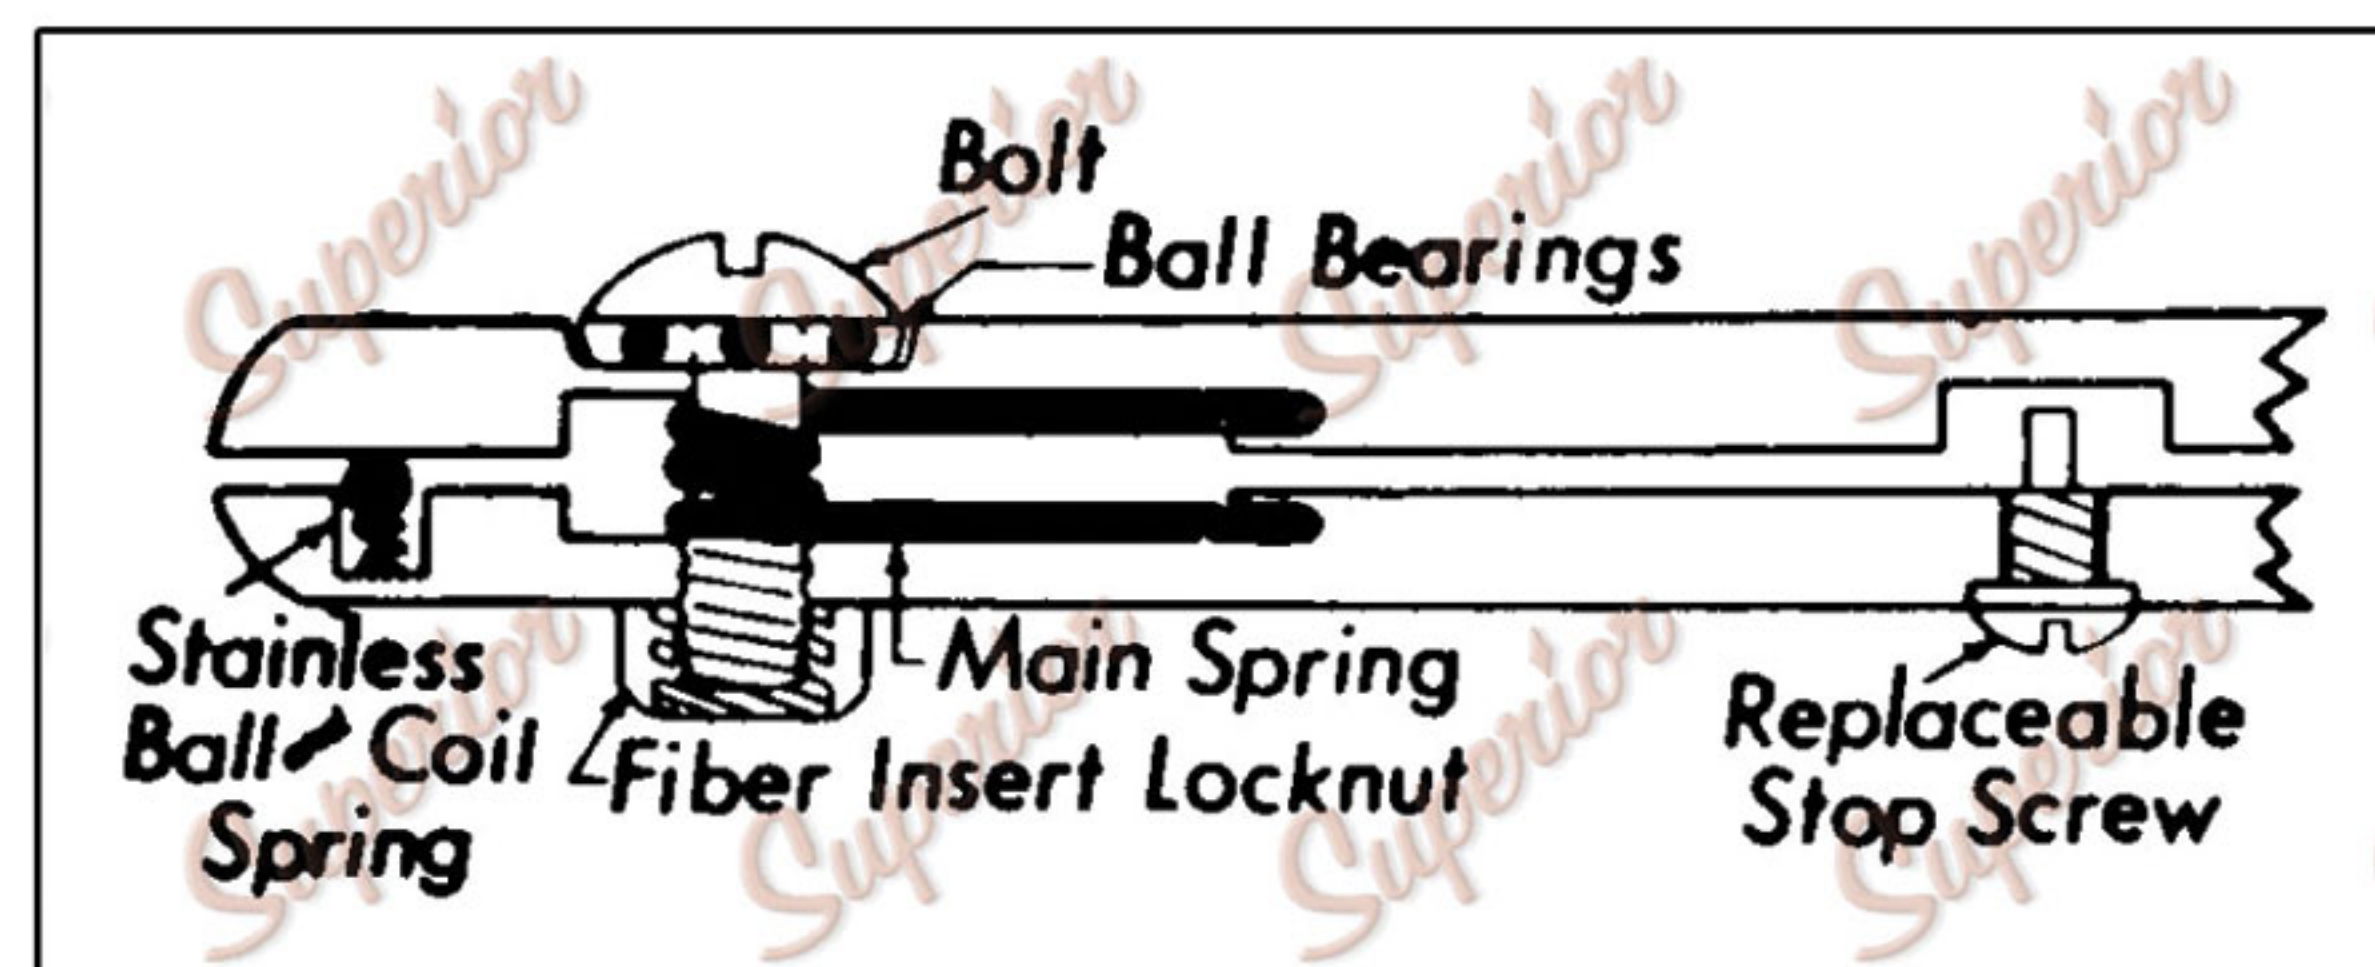

ITEM NO.	DESCRIPTION	FULL LENGTH	CUT LENGTH
104X	Polymer	4 1/2" - 114mm	1 1/4" - 32mm
104XKE	Polymer/Knife edge	4 1/2" - 114mm	1 1/4" - 32mm

NIPPER HARDWARE (replacement parts)

Note: each part, as indicated in diagram can be ordered individually, by part number.

ITEM NO.	DESCRIPTION
104N10	Main bolt
104N15	Stop screw
104N20	Main spring
104N25	Coil spring for stainless ball
104N30	Fiber insert locknut
104N35	Stainless ball
104N40	Ball bearing in retainer

HONES - GOLD SEAL

Ceramic hones produce the finest edge on knife edge shears. A few passes on the cutting edge will restore the edge and eliminate more costly sharpening services.

ITEM NO.	DESCRIPTION	FULL LENGTH
99N (Brown)	Triangular	6" x 1/2" sides
100N (White)	Triangular	6" x 1/2" sides
101N (Brown)	Round w/handle	12" x 5/16" diameter

HEAVY DUTY BENT TRIMMERS - KNIFE EDGE

Rugged, overbuilt for the heaviest service. Used by tailors, carpeters, upholsters, shoe-makers, etc.

- Hot drop-forged, satin chromed, black handles.
- Oversized finger bow for comfort
- Thicker, heavier blades

ITEM NO.	FULL LENGTH	CUT LENGTH
172KE10	10" - 254mm	4 3/4" - 121mm
172LHKE10 (LEFT HAND)	10" - 254mm	4 3/4" - 121mm
180KE12	12" - 305mm	6" - 152mm

BENT TRIMMER - KNIFE EDGE

Professional, dressmaker shears for cutting fabric of all weights and multiple layers. Bent pattern facilitates cutting material on flat surfaces.

- Hot drop-forged, fully satin chromed over nickel, rust/stain resistant.

ITEM NO	FULL LENGTH	CUT LENGTH
171KE6	6" - 152mm	2 5/8" - 67mm
171KE7	7" - 178mm	3 1/4" - 83mm
171LHKE7 1/2 (LEFT HAND)	7 1/2" - 191mm	3 5/8" - 92mm
171KE8	8" - 203mm	3 7/8" - 98mm
171LHKE8 (LEFT HAND)	8" - 203mm	4" - 102mm
171KE9	9" - 229mm	4 3/8" - 111mm

171KE12	12" - 305mm	5 1/2" - 130mm

STRAIGHT TRIMMERS - KNIFE EDGE

General purpose shears, for industrial, household, utility or any sewing application where bent trimmers are not practicable.

- Hot drop-forged, fully satin chromed over nickel, rust/stain resistant.

ITEM NO	FULL LENGTH.	CUT LENGTH
170KE6	6" - 152mm	2 3/4" - 70mm
170KE7	7" - 178mm	3 1/4" - 83mm
170KE8	8" - 203mm	3 7/8" - 98mm
170KE9	9" - 229mm	4 3/8" - 111mm
170KE10	10" - 254mm	5 3/8" - 137mm

POULTRY SHEARS - KNIFE EDGE

Rounded, blunt points, run smoothly, cut cleanly and last a long time.

- Hot drop-forged cutlery steel that is fully hardened and tempered.
- Fully satin chromed over nickel, rust/stain resistant, will not peel
- Bolt pivot with locking nut - adjustable.

ITEM NO	FULL LENGTH.	CUT LENGTH
190P8 (High Leverage)	8" - 203mm	2 1/4" - 57mm
191P9	8" - 203mm	3 1/4" - 83mm
170PKE9 (Sharp Points)	9" - 229mm	3 7/8" - 98mm

Superior

HEAVY DUTY UTILITY TRIMMERS - KNIFE EDGE

Longer handles, heavier construction provide extra leverage and strength for tough cutting tasks. These well balanced shears are ideal for multiple applications, i.e., carpet, garment, food processing, upholstery, leather, etc.

- Hot drop-forged, fully satin chromed over nickel, rust/stain resistant.

ITEM NO.	FULL LENGTH	CUT LENGTH
176KE8	8" - 203mm	3" - 76mm
186KE8 (Larger Finger Bow)	8" - 203mm	3" - 76mm

RUG/UTILITY SHEARS - KNIFE EDGE

Specially designed shears with longer handles and elongated shank that provides extra leverage. These patterns are suitable for close work and tight places. They have wide applications in industries such as: carpet, garment, food processing, upholstery, shoe, and leather goods, etc.

ITEM NO.	FULL LENGTH	CUT LENGTH
179CHKE7 1/2 (Lighter Pattern)	7 1/2" - 191mm	2 3/4" - 70mm
176CHKE8 (Offset Handle)	8" - 203mm	3" - 76mm
170PCB8 (Curved Blades)	8" - 203mm	3" - 76mm
170LHPCB7 (Left Hand)	7 1/2" - 191mm	2 3/4" - 70mm

BIG SIX TRIMMER

Tailor point scissors, but with a regular handle.

- Large bows, double sharp points.

178KE6 1/2	6 1/2" - 165mm	2 1/2" - 64mm
-------------------	----------------	---------------

UTILITY SCISSORS

Longer shank, ring handle, very fine sharp points and tapered blades.

- Hot drop-forged, fully nickel plated.
- Increased leverage.

ITEM NO.	FULL LENGTH	CUT LENGTH
157KE5	5" - 127mm	1 5/8" - 41mm

EMBROIDERY SCISSORS - KNIFE EDGE

Double sharp points and tapered blades, designed for light work requiring close detail.

ITEM NO.	FULL LENGTH	CUT LENGTH
154KE4	4" - 102mm	1 1/2" - 38mm
154KE5	5" - 127mm	2 1/8" - 54mm
