LIST OF PARTS

MACHINE No. 114-31

THE SINGER MANUFACTURING COMPANY

INSTRUCTIONS FOR OILING

To insure easy running and prevent unnecessary wear of the parts which are in movable contact, the machine requires oiling, and when in continuous use it must be oiled at least once each day with Singer "Oil for High Speed Sewing Machines (Cloth and Leather)" for general use, or "Stainless Oil for High Speed Sewing Machines" where a stainless oil is desired.

To reach the oiling points under the machine bed, remove the two front screws in the machine base; turn the machine back on its hinges and pull out the cover on the underside of the machine bed.
