# INSTRUCTIONS FOR OILING

---

Apply oil to all oil holes, oil tubes and ball oilers often enough to keep the machine well lubricated. The ball oilers prevent dust from clogging the oil tube which retains the wicking for lubricating the rotary shaft crank bearing, and care must be taken to see that the ball oilers return to a closed position after oiling.

Use either Singer "OIL FOR HIGH SPEED SEWING MACHINES (Cloth and Leather)" for general use, or "STAINLESS OIL FOR HIGH SPEED SEWING MACHINES" where a stainless oil is desired.
