

LIST OF PARTS

FOR

No. 25-50

MACHINE.

In ordering from this list, use **ONLY** the **PART** number in the **FIRST** column.

The number stamped on Sewing Machine parts is in every case the number of the single part only.

Every combination of parts sent out as such has its specific number, which, although not stamped on the parts, must be used when ordering the combination.

Each number always indicates the **SAME PART** in whatever list it appears, or for whatever machine.

The letters after some of the numbers indicate the style of finish only, as follows:

- A. Hardened, Polished and Plated.
- B. Polished and Plated.
- C. Hardened only.
- D. Polished "
- E. Soft, not polished.

These letters **MUST BE USED** *when* they appear in the list, and **AFTER** the number, *as* in the list.

In this series

1 to 1500 are Screw Numbers.

1501 " 1800 " Nut "

1801 " 2000 " Roller "

2001 and upward are numbers of Machine Parts.

The figures in the second column refer only to the plates illustrating the parts, and are **NOT TO BE USED** in ordering.

Parts marked with an asterisk (*) are furnished only when repairs are made at factory.
